SUMMARY

Skilled React developer with a deep understanding of front-end technologies including HTML, CSS, and JavaScript along with proficiency in backend-technologies MySQL and Node.js seeking to leverage expertise in web development to contribute effectively to projects. Eager to apply academic knowledge and hands-on skills to support the innovative projects with a passion for creating engaging and user-friendly websites.

PROJECTS   Links-https://portfolio-komal.vercel.app/

LearnX (E-learning Platform)

- Designed a website to deliver the content to the students related to web technology in readmode and can solve exercises.
- Designed to offering a dynamic and interactive learning environment accessible from anywhere with an internet connection.

FoodBestow

- FoodBestow is an innovative web-based platform dedicated to reducing food waste and fighting hunger by facilitating food donations. The platform connects restaurants, PGs (paying guest accommodations), and other entities with surplus food to nearby NGOs and charities that distribute it to those in need.

INTERNSHIPS

Web Deveopment(React)   -Aryan Info Matrix Pvt Ltd.

- It was 45 days internship where I along with team made an E-learning platform (LearnX) using React & Tailwind.

IOT based Product Development   -PIET AICTE IDEA LAB

- It was 15 days internship where I made an IOT based product Weather Monitoring System. It collect weather information from various sensors deployed in different locations accessible through web.
